Lesson 1	Simplifying Rational Express Finding Restricted Values of		guide	C
	Rational Expressions		notes	5
Lesson	Objective		V	and a
	e restrictions that must be placed or expression.	n the variable in a	-	
)		
A rational ex	pression is a fraction whose nun	nerator and denominate	or are	
	of a rational expression is the se that make the denominator		-	
	of a rati			
	makes the denominator of that		-	
Find the	restricted values of the rational exp	ression: <u>9</u> .		
		X		
2 Find the	domain of the rational expression:	<u>)</u>		
3 Find the	restricted values of the rational exp	ression: $\frac{4}{x+9}$.		
Eind the	restricted values of the rational exp	ression: <u>3n</u>		
		2n – 6		
5 Find the	restricted values of the rational exp	ression: $\frac{x+1}{x^2+x-6}$.
