NAME _____ DATE _____

Module 13 Solving Quadratic Equations
                of One Variable
Lesson 4   Solving Quadratic Equations
                by Completing the Square

guided practice

Set 1

1. Complete the square. $y^2 - 20y +$ _____

2. Factor: $y^2 - 20y + 100$

_____

3. Solve by completing the square. $-4p^2 + 24p = 11$

_____
