Module 2 Writing and Simplifying Algebraic Expressions
Lesson 2 Translating Word Phrases into Algebraic Expressions

additional practice

Write an algebraic expression for the following.

1. 6 more than a number

2. the sum of 3 and some number

3. 9 less than y

4. m minus 7

5. twice some number

6. the product of –5 and t

7. one-third of N

8. half of q

9. 45 more than three-fifths of z

10. 7 less than the product nine times a number

11. triple the difference c minus 13

12. 79 less than the square of b

13. twice a number added to the cube of the number

14. three less than five times W

15. 8 less than the quotient D divided by –4

16. the sum of v and 12 divided by two

17. five-sevenths of the square of y

18. two-thirds the sum of p and 15

19. 23 added to –7 times a number

20. –7 times a number cubed divided by 12
