**Module 3** Solving Linear Equations of One Variable

**Lesson 3** Solving One-Step Linear Equations

**additional  
practice**

**Solve for each variable and check.**

- |   |                                  |
|---|----------------------------------|
| 1. $T + 33 = 98$ _____                  | 2. $k + 32 = 55$ _____           |
| 3. $m - (-35) = 47$ _____               | 4. $47 + r = 11$ _____           |
| 5. $n - 18 = 205$ _____                 | 6. $-32 + h = -11$ _____         |
| 7. $g + \frac{1}{2} = 1$ _____          | 8. $Y + 1.3 = 2.6$ _____         |
| 9. $d - (-35) = 29$ _____               | 10. $22.125 + a = 7.75$ _____    |
| 11. $3w = 63$ _____                     | 12. $-11L = 517$ _____           |
| 13. $4P = -328$ _____                   | 14. $56f = -616$ _____           |
| 15. $\frac{X}{4} = 3$ _____             | 16. $V \div 14 = -6$ _____       |
| 17. $\frac{Q}{3} = 36\frac{1}{3}$ _____ | 18. $-\frac{W}{2} = 111$ _____   |
| 19. $G \div \frac{1}{2} = -178$ _____   | 20. $-\frac{s}{4.682} = 0$ _____ |
